

2019 Alabama: THE WILLIAMS FIRE

al3039808817220190514

Latitude: 30° 24' 39.6"
Longitude: -88° 10' 22.8"
Fire Ignition Date: May 14, 2019
Assessment Type: Initial
Pre-Fire Image Date: May 13, 2019 (S2B)
Post-Fire Image Date: May 28, 2019 (S2A)

This map portrays fire severity for the fire specified in the map title and summarizes proportions of fire severity classes. These data are produced under the Monitoring Trends in Burn Severity (MTBS) program jointly implemented by the USGS EROS and the USFS GTAC. The MTBS program ascertains the locations of fires based on available fire occurrence information provided by federal and state agencies, and other reliable sources. The MTBS program reserves the right to correct, update or modify geospatial inputs to this map without notification.

* Areas in either the pre-fire or post-fire reflectance imagery containing clouds, snow, shadows, smoke, significantly sized water bodies, missing lines of image data, etc.
